## CAREER OBJECTIVE

With more than 1 year of professional software development experience, I possess a robust understanding of fundamental concepts and practical skills in coding, debugging, and teamwork collaboration. I have versatile proficiency across multiple programming languages, tools, and frameworks, with hands-on experience in realworld applications. My adaptability and contribution potential in the ever-evolving software development landscape make me an asset to any team. I eagerly anticipate utilizing my skills to address fresh challenges and contribute to innovative projects.

## EDUCATION

### Bachelor of Engineering (Information Technology)

Government Engineering College Gandhinagar

📅 07/2019 - 06/2023

CGPA

8.48 / 10

## CERTIFICATION

Java Programming  
Certificate

Java Programming:  
Principles of Software  
Design

## PROJECTS

### Transport Bidders (SPRING Boot App)

This is a platform to address inefficiencies in the last mile logistics sector and transform the way goods are transported around cities, enabling lakhs of businesses move anything on-demand. we have provided bidding facility for customer to move their goods with more efficient ways.

Implemented configuration using Spring (JAVA)

Developed and implemented using Spring REST services.

**Skills used:** Core Java, Spring, JDBC Template, Hibernate, Git lab, SQL and Native Query, ORM Framework, HTML5, JSPs

**Technologies & Software Used:** My-SQL Server, Spring , NetBeans, Git

## SKILLS

Java Spring Boot

Spring Security AWS/S3/EC2

Docker Microservices JDBC

Maven Gradle Hibernate

Jenkins React.js Redux

JavaScript TypeScript

PostgreSQL MySQL MongoDB

DBeaver GIT Material UI

Html/Css/Bootstrap

## CAREER SUMMARY

### Associate Software Developer

Lanatus Systems LLP

📅 05/2023 - 11/2024 📍 Ahmedabad, India

Key Responsibilities:

- At Lanatus Systems, I focused on developing scalable backend applications using Java and Spring Boot, while also contributing to frontend development with React.js. My work aimed to enhance overall system performance in an agile environment.

### Software Developer Intern

InfoLabz

📅 01/2023 - 04/2023

📍 Ahmedabad, Gujarat, India

Key Responsibilities:

- During my internship at InfoLabz, I learned Java, Spring Boot, JavaScript, and React while collaborating with teams to complete tasks that enhanced backend functionality and created dynamic front-end interfaces, improving overall user experience.

# PROJECTS

---

## Portfolio (React Web App)

🔗 <https://tarun-vavadiya.vercel.app/>

As an accomplished software developer, I've built a robust portfolio that demonstrates my skills in designing, developing, and fine-tuning software solutions.

My portfolio features a wide array of projects, highlighting my proficiency across various technologies and programming languages.

---

## Financial Advisor (Spring Boot App)

🔗 <https://www.advisorcheck.com/>

**Advisor Check** is an innovative application that seamlessly integrates with company systems, providing financial advice anytime, anywhere.

The app prioritizes security, ensuring client data remains confidential, and is designed for user-friendliness, simplifying financial planning for everyone.

**Implemented configuration using Spring Framework (JAVA)**  
**Developed and deployed using Spring REST services.**

**Skills utilized:** Core Java, Spring boot, Junit , JPA, Jenkins, HTML 5, CSS3, Java script

**Technologies & Software Used:** MySQL, Spring, NetBeans, IntelliJ idea, Git
