EXPERIENCE

Software Developer Intern
InfoLabz

📅 01/2023 - 05/2023   📍 Ahmedabad, Gujarat, India

Key Responsibilities :-

- As a dedicated Software Developer, I successfully completed an internship at InfoLabz. Collaborated with crossfunctional teams to create innovative projects, fostering a collaborative environment and ensuring timely delivery of highquality software.
- Led the design and implementation of end-to-end solutions using Java and Spring Boot for robust backend functionality, complemented by dynamic and responsive front-end interfaces developed with JavaScript and React.

Software Developer
Lanatus Systems

📅 05/2023 - Present   📍 Ahmedabad, Gujarat, India

Key Responsibilities :-

- As a key member of the development team at Lanatus Systems, I played a pivotal role in crafting robust and dynamic web applications. Leveraging my expertise in React.js and JavaScript, I contributed to the frontend development, ensuring an intuitive and seamless user experience. On the backend, I demonstrated proficiency in Java and Spring Boot, utilizing their powerful capabilities to build scalable and efficient server-side applications.
- Working collaboratively within an agile environment, I successfully contributed to the full development lifecycle. This involved participating in sprint planning, conducting code reviews, and addressing any challenges that arose during the development process.

EDUCATION

Bachelor of Engineering
Government Engineering College Gandhinagar

📅 07/2019 - 06/2022   📍 Gandhinagar, Gujarat, India

CGPA
8.48 / 10

High School Course (H.S.C)
P. P. Savani International School

📅 04/2017 - 03/2019   📍 Surat, Gujarat, India

percentage
84.9 / 100

STRENGTHS

◆ **Motivated**
Dedicated to achieving excellent results with a strong drive and enthusiasm.

◆ **Clean Code**
Skilled at producing well-structured, readable, and maintainable code for efficient software development.

◆ **Collaborative Problem Solving and Teamwork**
Demonstrated ability to work effectively with others to identify, analyze, and solve complex problems.

◆ **Adaptability**
Quickly adjust to new environments, technologies, and team dynamics to deliver high-quality results.

◆ **Software Development Skills**
Proficient in a diverse range of programming languages, frameworks, and content management systems.

SUMMARY

With a year of professional experience in software development, I bring a solid grasp of core concepts and hands-on skills in coding, debugging, and collaborative teamwork. I have a versatile proficiency in various programming languages, tools, and frameworks, coupled with practical experience in real-world applications. My ability to adapt and contribute in the dynamic field of software development makes me a valuable team member. I look forward to leveraging my skills to tackle new challenges and contribute to innovative projects.

PROJECTS

Portfolio

🔗 https://tarun-vavadiya.vercel.app/

- As a software developer, I have cultivated a comprehensive portfolio that reflects my proficiency in designing, developing, and optimizing software solutions.
- My portfolio encompasses a diverse range of projects, showcasing my expertise in various technologies and programming languages.

UI Builder

🔗 https://configurator-fraindz.vercel.app/

- Integ UI Builder is a cutting-edge solution that revolutionizes front-end application development with a no-code approach.
- The platform boasts powerful components, including customizable Grids and Tabs, tailored for enterprise applications.

Common Floor

🔗 https://www.commonfloor.com/

- Common Floor is innovative online marketplace connecting buyers, tenants, and sellers in the real estate domain.
- Spearheaded the platform's development, enhancing its efficiency for users in their property search, buying, and renting endeavors. .

SKILLS

Java	Spring Boot	AWS	Docker
Microservices	React.js	Redux	
javascript	Maven	Gradle	Jdbc
Hibernates	Html/Css	Mui	Bootstrap
Postgresql	MongoDB	MySql	Dbeaver
Git/Github/Gitlab	DSA
